The background features abstract, overlapping shapes in shades of light green and light orange. In the top right corner, there are several small, scattered dots in orange, grey, and black.

Let's do "Simon says..." game!!

What is Simon Game?

1. Decide who will give the instructions.
2. The person giving the instructions can give two types of commands as follows

“Simon says Touch your Atama”/“Touch your head”

3. When you hear the instructions, you must take different actions with these two types of commands.

If you say “Simon says” first, touch the body part you are told quickly. If there is no “Simon says” at the beginning, do not touch the body part.
